

# Warning!

DCTV is an electronic device which requires care when connecting it to computers and peripherals. It is imperative that the RGB connector of DCTV be firmly connected to the RGB video port of your Amiga. If it happens to become disconnected with the power on,

**damage may occur to DCTV and/or your Amiga!!!**

Please be sure to read your manual first before doing anything with the DCTV hardware. Failure to follow directions given in the installation section of the DCTV manual will void your warranty.

---
